

LPG Sports Academy Nashville Covid 19 Protocols

Effective August 11, 2021

We are continuing the following procedures to help ensure the safety of our customers and coaches. We will continue to monitor the covid- 19 situation in our area and may adjust based on updated information and guidance from government authorities.

- All children participating in classes or activities will be asked to wash or sanitize their hands prior to participating in any program.
- Each child participating in activities will have their own equipment for the day which will limit cross-touching of equipment. We are sanitizing the equipment regularly.
- To avoid crowded conditions in the lobby of our Franklin facility, all customers will enter the building through the front door but exit through the side door next to the basketball court.
- Masks are optional for children. Many of our children are very young and we recognize the challenges of having them maintain a mask in an athletic setting, so they will not be mandated.
- Masks are strongly encouraged for all adults in our indoor facilities but not required.
 - Those not wearing masks in the building are asked to practice social distancing as much as possible.
 - Children aged 4 and above can be checked in at the front door for their class and parents can wait in their car while their child participates in their class and pick up their child from the side exit door once the class has completed. In these cases, parents will be required to stay on property to be available in case of injury.
- We have modified our curriculum to allow for more distancing in our games and activities.
